No discussion.

- 3) **RESOLUTION:** A RESOLUTION APPROVING A MEMORANDUM OF UNDERSTANDING WARREN COUNTY TACTICAL RESPONSE UNIT AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE SAME ON BEHALF OF THE CITY OF SPRINGBORO WITH OTHER POLITICAL SUBDIVISIONS IN WARREN COUNTY, OHIO.

No discussion.

ITEM 4. CITY MANAGER.

– Issues/Reports.

Decorative Light Pole Replacement on S. Main Street: Mr. Pozzuto commented that staff is proposing to replace all of the decorative light poles on S. Main Street. The poles are more than 25-30 years old and are in need of replacement. Staff recommends replacing the poles for two reasons, one, to convert them to the new LED technology saving energy costs and, two, the existing light poles will not be able to handle the WiFi equipment that the City plans to install in the downtown area. This project would be considered part of the City's initiative to extend WiFi service from Wright Station to the Historic District.

Mr. Pozzuto explained that this project coincides with the City's new broadband fiber network project to provide more internet and WiFi services to the community. Mr. Pozzuto further explained that Duke Energy would replace the old poles at approximately \$3,000 per pole with new LED light poles and then install the WiFi on the poles for the public to use in the downtown Main Street area. This project would be in anticipation of potentially expanding the DORA (Designated Outdoor Refreshment Area) to the downtown area in an effort to make Wright Station and the downtown one cohesive area. Mr. Pozzuto added that the City has set aside monies for this project from unencumbered funds from the 2020 budget in anticipation of Council's approval.

Mayor Agenbroad commented that this project was discussed at the Finance Committee meeting earlier this evening and the committee was generally on board with the project.

Mr. Chmiel (Finance Committee Chair) commented that the committee had some concerns about the number of poles, the brightness of the LEDs, etc.

Mr. Pozzuto clarified that they would replace every existing pole with new poles in the exact same spot; no poles would be moved from their current location and no more poles would be added.

Mr. Chmiel commented that he thought some of the poles were not lighted.

Mr. Pozzuto commented that those are the banner poles, which will remain in place; only the lighted poles will be replaced.

Mr. Chmiel confirmed that no one would have a new light pole in front of their house who does not already have one.

Mr. Pozzuto confirmed that the new light poles would be placed in the exact same locations of the existing poles.

Ms. Iverson commented that her concern was with the tone and intensity of the lighting due to the nature of LED lighting i.e. the bright white color of LEDs.

Mr. Pozzuto explained that they would try to replicate the existing lighting. He further explained that LEDs can be toned down to a warmer color by choosing a lower Kelvin or color temperature similar to what the lighting looks like now, which is more yellowish than white. Mr. Pozzuto commented that the LED lights would be whiter in color, but they will try to make sure they tone down the color to match as close to or the same as the existing color. Mr. Pozzuto reiterated that the lights might be a little bit brighter or whiter, but they will try to match the existing light quality as closely as possible.

Ms. Iverson reiterated that she is more concerned with the aesthetics of the lights.

Mr. Pozzuto confirmed that they plan to mimic the existing lights as much as possible.

Mr. Brunner commented that last year he noticed one of the light poles was down on S. Main Street and asked how many times this happens.

Mr. Pozzuto commented that this might happen once every few years and has happened all over the City such as on N. Main Street, by North Park, etc.

Mr. Brunner asked if the light poles were set further back on the sidewalk or shaped differently, would that make help or make a difference.

Mr. Pozzuto commented that if Council wants to drastically change the look of the lights they could, but those types of poles are not typically seen in a downtown setting where people walk. The existing light poles are 12 ft. high and they were planning to replicate the existing poles, which are straight decorative poles.

Mr. Brunner confirmed that the City would simply replace the new poles with the same poles when they are hit or knocked down and they would be durable enough for that use.

Mr. Pozzuto replied yes, commenting that the new poles would be somewhat thicker and stronger in order to support the WiFi equipment; the existing poles are a thin aluminum type of pole.

Mr. Chmiel asked if the new poles would need to be repainted over time.

Mr. Pozzuto explained that the new poles would come painted black, but eventually, maybe in 20-30 years, they would have to be repainted. Mr. Pozzuto further commented that electrostatic paint is used to coat the poles, which has a longer life span like 20-25 years.

Ms. Ridd confirmed that the light poles would be in the same place and have the same design.

Mr. Pozzuto replied yes, and he stated that they would make sure that the lighting is toned down appropriately for that area and try to get as close as possible to the existing light color.

Ms. Ridd commented that the City has used LED lighting along SR741 and has kept them in a color range that is not the bright white. Ms. Ridd add that the less white, more yellow color falls in the 2700-Kelvins range.

Mr. Pozzuto confirmed that they plan to keep the color temperature of the lights in the lower range of the Kelvin temperature.

There was no further discussion regarding this item.

- 2) **RESOLUTION R-21-1:** A RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH BARRETT PAVING MATERIALS INC. FOR THE "2021 STREET RESURFACING & CONCRETE WORK" PROGRAM, was read by the Clerk of Council. Mr. Pozzuto's comments are summarized as follows:

This resolution authorizes a contract with Barrett Paving Materials for the "2021 Street Resurfacing & Concrete Work" Program. This project consists of planing and resurfacing asphalt streets and removing and replacing deteriorating curbs, gutters, sidewalks, and driveway aprons. This year's program includes 21 streets. Staff recommends awarding the contract to Barrett Paving at \$1.139 million. During the COVID-19 pandemic, Council has directed staff to focus on the City's core services such as the repair and maintenance of streets. Street repaving is funded at approximately \$200-250,000 more this year compared to previous years demonstrating this commitment to focus on the core services the City provides to the community.

Mayor Agenbroad presented the item for questions/comments of Council. No questions/comments.

Mr. Pozzuto's comments are summarized as follows:

This resolution approves a Memorandum of Understanding for the Warren County Tactical Response Unit. This unit consists of officers from many Warren County Police agencies and responds to incidents where the level of risk and violence is high. The City has participated in the Tactical Response Unit for the past 20 years. The City always works well with other jurisdictions in Warren County with respect to sharing services such as salt supplies and police aid. This resolution approves a formal agreement between all of the political subdivisions that participate in this unit.
