## Declaration of Estimated Tax Due

- Lines 9-12** If you anticipate owing more than \$500 in tax when you file your 2023 tax return, we recommend that you make quarterly estimated payments. Follow the instructions on lines 9-11 to estimate your tax liability for 2023, based on your 2022 income and credits. (Note: If you expect your income or credits to be significantly different than what you reported on your 2022 return, go ahead and make any necessary adjustments to your line 9 and 10 entries to more accurately reflect your anticipated 2023 income and credits.) Once you determine your estimated balance due on line 11, divide that number by 4 to determine your quarterly estimated payments for 2023 and enter the amount on line 12.
- Line 13** If you are not making an estimated 2023 payment with your 2022 tax return, enter the amount from line 7. If you wish to make your 1st quarter 2023 estimated payment at the same time you pay your 2022 balance due, add the amounts from line 7 and 12 to determine the total payment to make with your return.
