Ohio's Municipal Records Program

Government cannot function without the records that serve as an institutional memory. If they are created, maintained, and disposed of in an orderly manner, the records will serve their purpose well and be an asset to the public office that created them. If, on the other hand, they are created, maintained, or disposed of in a haphazard manner, the same records will become a legal liability, waste valuable space, increase operating expenses, and squander staff time.

The purpose of this manual is to provide a foundation for Ohio municipal officials who wish to establish and maintain a basic records management program. Although many municipal record series are listed, some are not. To establish a retention period for a record series, use the four values listed under Appraisal. The retention periods found in this manual are only suggestions. Before any municipal records may be disposed of in any manner, the municipal records commission must approve the action in an open meeting (Sec. 121.22 ORC) and submit the approved forms to the Ohio Historical Society's Local Government Records Program (LGRP). The LGRP will then send the forms to the Ohio Auditor of State. The Auditor of State returns the approved forms to the LGRP, which retains the original and sends a copy back to the municipal records commission. The commission should send a copy to the originating office. Questions about this manual or records retention and disposition should be addressed to Ohio Historical Society, State Archives of Ohio, Local Government Records Program (LGRP), 1982 Velma Avenue, Columbus, Ohio 43211-2497 (614/297-2553) or localrecs@ohiohistory.org

Establishing A Records Program

There are five basic steps in establishing a sound record management program.

1) Inventory. The idea is to inventory all the records found in each municipal office. The reality is that a total inventory is difficult unless a full-time records manager does it. However, it can be done if you divide up the work by office and each office completes a records inventory. The basic unit of the inventory is the records series. A records series is a sequence of records classified and filed as a single filing system. Examples of separate record series are checks, vouchers, minutes, and leave requests. A records inventory should include all records series whether they are located in an office or storage area.

2) Appraisal. This second step is difficult and generally raises the most questions. Appraisal is the determination of the appropriate retention period of each record series, based on its administrative, legal, fiscal, and historical value to the municipality or the State of Ohio.

A record has administrative value if it is needed to conduct the current business of the public office that creates it. Administrative value diminishes over time because it is no longer needed for current business.

A record has legal value if it documents or protects the legal rights of the public entity that created it. Records possessing legal value should be retained until the legal rights or obligations to which they pertain expire.

A record has fiscal value if it is used in accounting for public funds. Records having fiscal value must be retained at least until the accounts have been audited. Records of local activities funded with combinations of state and federal funds might have to be retained longer than records pertaining solely to local funds.

A record has historical (archival) value if it has continuing historical value to the State of Ohio and its citizens. The Ohio Historical Society Local Government Records Program staff makes this determination.

The retention periods suggested in this manual are based upon the application of each of the four values of records to each records series. Records often possess more than one value; retention periods are based on satisfying the value with the longest retention need. For example, a records series having administrative value of one month may be required to be retained for two years to be audited; therefore, the retention period should be three years. A city may adopt retention periods different from those suggested in this

manual. Please contact the OHS Local Government Records Program (LGRP) if you have questions concerning these suggested retention periods or the disposal process.

3) Adopt Retention Schedules. Municipal records may be disposed of only through the process mandated in section 149.39 Ohio Revised Code. Only three forms are used in the LGR Program. Master copies can be found on our website at <http://www.ohiohistory.org/resource/lgr/> or by requesting that copies be mailed.

A properly approved Schedule of Records Retention and Destruction (RC-2) constitutes continuing authority to dispose of records when the scheduled retention period has expired.

An Application for One-Time Record Disposal of Obsolete Records (RC-1) is used for the one-time disposition of obsolete records, and does not represent continuing authority to destroy records. It is absolutely valid for only the obsolete records listed on the form and can only be used for one disposal.

Retention periods may be expressed in one of three ways:

- 1) As a specific time period (e.g., retain five years, then destroy);
- 2) In relation to an event (e.g., destroy after audited by the Auditor of State and audit report is released);
- 3) As a combination of both of these (e.g., retain five years after audited, then destroy).

Retention periods should always be clearly stated to avoid confusion or improper disposal. The best retention period is one that everyone can follow. Therefore, a specific time period is probably the safest one to use.

4) Disposal. Once a records retention schedule has been properly approved for a municipal department it should be followed and reviewed annually. Following an approved schedule is a good business practice that will prevent an unwanted accumulation of useless records that have outlived their value.

Before the disposal of any municipal records can occur, a Certificate of Records Disposal (RC-3) must be filed with the OHS Local Government Records Program, which in turn, will send the RC-3 to the Auditor of State's Records Officer in Columbus. The Certificate of Disposal (RC-3) should be filed a minimum of fifteen (15) business days before the proposed disposal or destruction date. To prevent improper records disposal, all municipal employees involved with records retention or disposition activities should be familiar with Sections 149.31, 149.351, and 149.39 of the Ohio Revised. Errors can cost the municipality both money and embarrassment. Consult your legal counsel if you have any doubts concerning records disposal. To safeguard and protect public records, Section 149.31 ORC requires a written agreement between the Ohio Historical Society and certain entities concerning the transfer of records.

5) Maintenance of Records of Long - Term Value. Records with retention periods exceeding 10 years are often viewed as being long-term. Providing appropriate storage facilities is essential for the preservation of long-term records. Most municipalities cannot afford record storage centers or the latest equipment for controlling temperature and humidity. Nevertheless, it is important to provide a cool, dry, and secure storage area for municipal records, especially records having a long-term value. Exhaust fans, portable dehumidifiers, fire extinguishers, metal shelving, and regular cleaning will go a long way toward increasing the life span of paper records. Storing records in leaky attics, musty basements, and unheated outdoor storage sheds goes against common sense and good business practices. Commercial records storage may provide an alternative economic storage solution for seldom-needed records. However, examine all storage charges and access fees for a complete cost benefit analysis. Microfilm is another storage medium which, when properly utilized, can be a valuable asset in a records program. It can be used to reduce bulk or to provide security copies of vital records. Before beginning a microfilm program, thoroughly evaluate and cost justify it. Be sure to include the cost of a reader-printer if you wish to use the microfilm in lieu of the original (Sec. 9.01 ORC) or for public access (Sec. 149.43 ORC). All microfilming should meet or exceed American National Standards Institute (ANSI) standards. Currently, there are no ANSI standards for retaining permanent records either on optical disks or in other electronic formats.

The Ohio Historical Society, through the Ohio Network of American History Research Centers (ONAHRC), administers a program for the preservation of local government records that have continuing historical value.

Municipalities devoting space to the storage of historical records that have outlived their administrative, legal, and fiscal value should consider transferring these records to the appropriate network center for permanent preservation in a true archival setting at no cost to the municipality and while permitting access to researchers.

Using this Manual

This manual is presented in a columnar format for quick and easy reference. The chapters correspond to major functional divisions common to municipal governments in Ohio. All municipal departments, boards, commissions should use the General Records Retention Schedules and other entities associated with municipality. The more complex functions are further divided when appropriate. Each entry includes the title of a record series and the suggested retention period. It is extremely difficult to create a comprehensive list of all municipal records therefore some records are not listed. Contact the OHS State Archives Local Government Records Program (614\297-2553) with your constructive comments and suggestions. Our E - Mail address is: localrecs@ohiohistory.org.

Role of the Ohio Historical Society

The Ohio Historical Society (OHS) is designated by section 149.31, Ohio Revised Code, as the "archives administration for the State of Ohio and its political subdivisions." It also has the first right to select for historical purposes local records which have continuing historical value to the State of Ohio and its citizens (Sec. 149.39 ORC). To fulfill these responsibilities, OHS administers the Local Government Records Program (LGRP). The LGRP works with municipalities to develop a practical records management program. The Ohio Historical Society has designated eight Ohio Network of American History Research Centers (Network Centers) as depositories for local government records within their respective regions. Municipal records transferred to the custody of a network center retain their own identity as records belonging to the originating municipality, and are available to the originating municipality should the need arise.

Note:

"Audited" and "Provided Audited" , when used in this manual and on all RC 1, RC 2 and RC 3s, means: the years encompassed by the records have been audited by the Ohio Auditor of State and the audit report has been released pursuant to Section 117.26 Ohio Revised Code. To confirm audit periods and release dates, contact your fiscal officer or the Ohio Auditor of State's Clerk of the Bureau, Columbus.

Targets suggested for use in municipal planetary camera microfilm programs. (See ANSI Standards)

Microfilm Targets for Each Roll

Target Explanation

1. BEGIN ROLL # Must be eye-legible; begin each record series anew with roll #1.
2. TITLE BOARD Must be eye-legible; for example:
Akron
City Council
Ordinances, 1945 - 1947
3. UNIT CONTINUED FROM Must be eye-legible.
PREVIOUS ROLL (if applicable)
4. PUBLIC OFFICIAL'S CERTIFICATION Certifies microfilm is an official record of a public office and complies with Section 9.01 ORC.
5. NOTES TO RESEARCHERS Typed on white paper providing user with information such as where original the material is located, who filmed records, and where copies are available.
6. TECHNICAL TARGETS Include the five (5) standard resolution charts and state the reduction ratio being used.
7. CERTIFICATION BY MICROFILM Certifies the date microfilm created and type.
CAMERA OPERATOR OR VENDOR of work performed by camera operator and vendor.
8. SPECIAL NOTATIONS Other eye-legible targets may be made up on white.
MATERIAL MISSING paper as needed.
PAGES MISNUMBERED
RETAKE INSERTED HERE
9. UNIT CONTINUES ON NEXT ROLL Must be eye-legible. (If applicable)
10. END OF ROLL REWIND Must be eye-legible.

ANSI STANDARDS

For copies of ANSI/AIIM Standards which cover microfilm, microfiche, and computer output microfilm (COM), contact The Association for Information and Image Management International (AIIM), 1100 Wayne Avenue, Suite 1100, Silver Spring, Maryland 20910-5603. Printed copies of the ANSI standards and technical reports are not inexpensive. Professionals creating or processing microfilm should know and comply with ANSI standards especially if the micrographic image is replacing an original record pursuant to Section 9.01 ORC. After microfilming, do not destroy any public record unless you have an approved RC-2 which clearly states that the records will be destroyed after microfilming and a properly completed RC-3 submitted fifteen business days prior to the disposal. Municipal Courts should dispose of their records pursuant to Sup. CT. Rule 26 (E), of the Supreme Court of Ohio Rules of Superintendence.

Appendix 2

1. Local Government Records Forms:

Application for One-Time Records Disposal of Obsolete Records (RC-1)

This form is used to request authorization to dispose of obsolete records series or record series no longer being created. Only the specific records listed on the application may be disposed of. Once the RC -1 is been approved and signed by all parties, a completed Certificate of Records Disposal (RC-3) should be filed before the actual disposal takes place.

Schedule of Records Retention and Disposition (RC-2)

This form is used to request continuing authority to dispose of records after the end of the approved record retention period. Each records series must be listed separately, given a unique schedule number, and assigned a retention period. Use the retention period suggested in this manual or one based upon the administrative, fiscal, or legal value of the records to your municipality. Once a RC-2 form has been properly approved it is in effect and should be followed. Before a disposal takes place, it is not necessary for a Municipal Records Commission to review or re-approve the RC-2 that authorized the disposal.

Certificate of Records Disposal (RC-3)

Fifteen business days before a disposal takes place, the originating office should send an original Certificate of Records Disposal (RC-3) to the Ohio Historical Society's Local Government Records Program (LGRP) and a copy to their municipal records commission. The RC-3 certificate serves as official notification of the proposed intent to dispose of municipal records. Complete all the columns accurately so the LGRP can send the RC-3 to the Auditor of State for possible compliance verification.

Records Inventory Form

This form is for use when conducting a municipal records inventory. It is designed to allow for the recording of all pertinent information about each record series inventoried, and is suitable for use as a worksheet for records appraisal. Use a separate sheet for each record series.

2. Supreme Court Rules of Superintendence - Rules 26 - 26.05. Effective October 1, 1997

The following Rules of Superintendence for the Courts of Ohio, adopted by the Ohio Supreme Court on July 7, 1997, apply to municipal and county court records:

Rule 26 Court Records Management and Retention

Rule 26.01 Retention Schedule for the Administrative Records of the Courts

Rule 26.05 Municipal and County Courts - Records Retention Schedule

Consult the Ohio Bar Journal, August 11, 1997, issue for the complete rules or contact the Ohio Supreme Court (614/466-4199) or the Supreme Court Website at: www.state.oh.us

These rules of superintendence concern court records management and retention. Sup. Rule 26 (E)(2) requires that a written notice be sent to the Ohio Historical Society at least Sixty (60) Days prior to the destruction of a court record having a retention period greater than 10 years old or created prior to 1960. This written notice should be sent to: The Ohio Historical Society, State Archives of Ohio, Local Government Records Program (LGRP), 1982 Velma Avenue, Columbus, OH 43211-2497. During the sixty (60) day review period, the OHS - LGRP will notify the Court if any of the records set for disposal have continuing historical value. Transfer or disposition of court records to entities other than to the OHS - LGRP are subject to Section 149.31 ORC which requires a signed agreement between the Ohio Historical Society (LGRP) and the entity receiving the record. Currently, there are no American National Standards Institute (ANSI) standards for the long-term preservation of electronic data.
